

# Northeast South Dakota 2m Net - Meets Tuesdays at 7pm Central

Good evening and welcome to the North East South Dakota Two Meter Net. Your net control this evening is {callsign}. My name is {name} and I am located in {city state}. This is a directed net. Only full callsigns will be recognized when checking in or out of the net. The net meets every Tuesday night at seven PM Central time, on the 146.85 repeater. The purpose of this net is the handling of traffic, both formal and informal, making contacts, sharing weather information, and just passing the time of day. Do we have any emergency or priority traffic?

Do we have any formal traffic, traffic with a number?
